

Work starts on \$130m estate

WORK began yesterday on a \$130 million development at Tomago that will create more than 300 jobs and 100 apprenticeships.

The site will be machinery dealer WesTrac's NSW headquarters.

David Aspinall, from developer WEPL investments, said yesterday planning had begun to further expand the industrial and commercial park.

Mr Aspinall said development of the combined 310-hectare site would create a landmark industrial estate.
